Synopsis

Multi-metropolitan International UFO/UAP Press Conference.

Following the announcement December 2020, via the Congressional NDAA Bill, that the *Government of the United States of America* has ordered the *Pentagon* to reveal their classified UFO files through all branches of government, military, and intelligence, over the next 180 days (June 2021) — so too has the International Academic and Civilian UFOlogical Community chosen to gather and express itself on the matter of UFOs/UAPs, and to independently evaluate the contents of the *Pentagon/DoD* release, along with related relevant research and observations, to voice an independent opinion, for critical review.

The December 2020 Congressional NDAA Bill, and the July 25, 2021, official National Intelligence; Pentagon; and Secretary of Defense statements are as follows. Individual researchers from Academic and Civilian UFOlogical Community will respond to these in 4-6-minute individual videos, to be aired at an August 21, 2021, Multi-metropolitan International Press Conference.

Establishment of the Unidentified Aerial Phenomenon Task Force, by the Defense Department, August 10, **2020**. *Defense.gov*: https://www.defense.gov/Newsroom/Releases/Release/Article/2314065/establishment-of-unidentified-aerial-phenomena-task-force/

U.S. DEPARTMENT OF DEFENSE Release: "Statement by Pentagon Press Secretary John Kirby on Unidentified Aerial Phenomena Assessment": https://www.defense.gov/Newsroom/Releases/Release/Article/2672732/statement-by-pentagon-press-secretary-john-kirby-on-unidentified-aerial-phenome/

There are at least three groups of UFOlogy, with many sub-groups. Each one having a different spectrum of research as well as different sets of theories and hypotheses:

1. One studies the possibility of extraterrestrial life, genetic and cultural interventions on Earth, that may include communication protocols, contact experiences, and reverse engineering of technologies, following the Extraterrestrial Hypotheses (ETH).

2. Another, which is represented by civilian investigators and scientific researchers in UFOlogy, studies the anthropological experience behind the millions of known cases, and is also confronted by the highly interesting, yet unresolved, unknown phenomenon effecting the consciousness of the witnesses, the environmental context, and the spatiotemporal field of information. Some of this second group, may be inclined towards the Ultraterrestrial Hypothesis [3], Interdimensional Hypothesis [4], or Superintelligence Hypothesis.[5]

---

[3] *The Ultraterrestrial Hypothesis: https://www.encyclopedia.com/science-and-technology/technology/aviation-general/ufo*
[4] *ITH: https://en.wikipedia.org/wiki/Interdimensional_hypothesis*
[5] *The Superintelligence Hypothesis, is outlined in these two ExopoliticsTV presentations (Vancouver):*
Superintelligence Part I: The Ontology of the UFO: https://www.youtube.com/watch?v=pjED_8_RgIE
Superintelligence part II: https://m.youtube.com/watch?v=KOa8hBUoeSs&feature=youtu.be

3. A third one is a strictly military UFOlogy that postulates that foreign nations may covertly possess unacknowledged unconventional technologies that may be used for future wargame scenarios, and that have exotic technology that exhibits the behavior of many UFOs.

Naturally a combination of factors always remains open for consideration, as evidence accrues.
As the subject of UFOs is ever growing in cultural popularity (and too often reduced and characterized as "alien visitors" and sci-fi-like "alien space-craft"), on the other hand, the U.S. Department of Defense's disclosure of UAP intelligence could become an important consideration for the mass public reception of the overall phenomena associated to UFOs in general.

Consequently the International Academic and Civilian UFOlogical Community has a duty to voice its research findings, relay its stances, research criteria, and research data of this enigmatic phenomenon, in order to coordinate the coherent integration of the results into scientific discourses, and related transdisciplinary fields of heuristic exploration, in advancing our comprehension, in innovating this field of research, now in central focus of the world stage, as an independent voice of free information on the UFO/UAP phenomenon.

Participation

Each participant pre-records a four to six minutes video and writes a transcript of his discourse. (To be submitted before August 12th)

The day of the event, a multi-metropolitan **Press Conference** will be held LIVE from:

1) **MONTREAL, CANADA** *(in French and English)*

   Au studio de *Lux Média*[9], à Montréal.

Live broadcasting on *YouTube*: https://youtu.be/IuAZSE-zDsI

Each metropolitan Press Conference will start with **the montage of the presentations** (90 min). A document including all the written declarations of the participants will be available to the journalists and to the public. Each metropolitan Press Conference will then proceed to answer the journalists present at their location, in their own language.

After thirty minutes, the organizers in Montreal will visit the other metropolitan Press Conferences to allow international journalists to interact with the participants in other countries. The participants, who won't be able to be at one of the Press Conferences, will be able to answer journalists from their home (by *Zoom*).

One week after the event, a montage with extracts from each metropolitan Press Conference will be published.

Press Release

Press Statement by Ananda Bosman (organizer of "JFK & the Alien Presence" Press Conference, 1991 Copenhagen). Co-organizer with Yann Vadnais (Garpan.ca) and Alfred Lambremont Webre (Exopolitics.com) of the "Multi-Metropolitan Academic UFOlogy Press Conference in response to the Pentagon's UAP Task Force Report on UFOs/UAPs)".

Vancouver, Round House, August 21st, 2021

In response to the Pentagon's UAP Task Force Report assembled from all branches of the US Government, Military, Intelligence — the International Academic and Civilian UFOlogical Community, will voice its independent evaluation of the UAPTS report, with related relevant research, as an independent voice for critical review.
There are three main UFOlogy groups (with subgroups):

1. Studies the Extraterrestrial Hypothesis (ETH), extraterrestrial life, genetic and cultural intervention, and the ET contact/experience, at face value.
2. Represents the civilian, scientific, and academic researchers, takes the anthropological approach, and may be inclined towards the Hyperdimensional Hypothesis (HDH); the Ultraterrestrial Hypothesis (UTH); or the Superintelligence Hypothesis (SIH).
3. Strictly adheres to Military UFOlogy that investigates and postulates unacknowledged unconventional exotic technology covertly possessed by foreign or domestic nations, exhibiting the behavior of some UFO cases.

A combination of factors is always open for review as evidence accrues.

The International Academic and Civilian UFOlogical Community will voice its research findings, criteria, and data, to coordinate the coherent integration of results into scientific discourses, and related transdisciplinary fields, in advancing our comprehension, and innovating this field of UAP research, with an independent academic voice of free information

Amidst this vastly amplifying world stage of events, some freshness emerged yesterday when Don Trump Jr (as a Father's day present) interviews his father, president Donald Trump, and asks his most important question concerning extraterrestrials, saved for last. This is almost a year since Trump's admitting being briefed on UFOs, the first US president to do so.
One has to watch it numerous times, and also pause to look into eyes, expression, and body language:
https://www.youtube.com/watch?v=-eJHMD2Gffk

It looks like Trump Jr smells that his dad knows something and is not telling. When one watches again, and looks carefully, there can appear to be a lot going on here. Trump has been briefed, two times, according to Dr Eric Davies, the only question is which briefing (from government whistleblowers, apparently there are different versions).

With this **interview by Joe Rogan of scientist Robert Lazar**, formally working at S4, Area 51, Lazar is now vindicated — most of the loose ends have pretty much been tied. Witness testimony establishes he was working under Dr Edward Teller, at the Nevada Test Site, and Los Alamos National Labs:

Joe Rogan Experience (podcast): "Bob Lazar is a physicist who worked at Los Alamos National Laboratory in New Mexico, and also on reverse engineering extraterrestrial technology at a site called S-4 near the Area 51 Groom Lake operating location. Jeremy Corbell is a contemporary artist and documentary filmmaker. Watch the documentary "Bob Lazar: Area 51 & Flying Saucers", on Netflix. Joe gives Lazar a deep scrutiny: https://www.youtube.com/watch?v=BEWz4SXfyCQ

The Joe Rogan interview is better than the Netflix documentary. But when one was not around in 1990-92 Nevada Prime Time News 8 presentations by George Knapp, then the basics are on Netflix.

The July 2019 Unidentified Drones UAP UAV's (Unidentified Aerial Vehicles), interacting with numerous Navy warships, traveling a good speed, and up for more than 3 hours:

https://www.nbcnews.com/politics/national-security/mystery-drones-hovered-over-u-s-navy-destroyers-california-coast-n1261970

Could also be vantages as a covert effort to introduce a blanket model, for blanket statements.
These July 2019 objects move much slower than the Tic Tac UAPs, at only 120 knots. However, they remain constant for 2-3 hours, and are a great distance out at sea from Californian land, to boot.
This occurs in the same areas of the California Pacific as the now famous UAP cases, like the USS Nimitz Tic Tac of 2004.
3 hour long lasting drones, that move with these descriptions are unknown, in 2019. However, the covert world may have them.
The Drive covers this more thoroughly than the NBC one:

There are going to be crows, magpies and vultures waiting for the DoD release. Mellon's clarification today could be helpful, as was Radcliffe's.
Mellon, last summer, mentioned the physical UAP debris from retrievals. Of course, we know much more than.
Today Mellon indicated that this aspect may not be in the public report. And that much of the classified material might be reviewed, and a plan made on how to publicly release some of this to the public eventually.
A lot will be a giveaway in the policies that follow, the interviews on TV and in MsM, the body language, and who starts focusing on related areas, ad hoc, or springing from these classified briefings.
It may take 1-4 years before Congressional Hearings occur. The long-term architects of the present process, like Colonel Dr John Alexander, intend to achieve the result of Congressional Hearings.

UFO LANDS AT MINOT AFB AUGUST 30 1966
BY AIR FORCE HQ Near Nuclear MISSILE Centre
Affects Radio Transmission & Strike Team Dispatched
(from official government documents, at end)

Capt. Smith (Missile Combat Crew Commander) on duty at Missile Site (MIKE Flt) sixty (60) feet underground indicated that radio transmission was being interrupted by static, this static was accompanied by the UFO coming close to the Missile Site
(MIKE Flt). When UFO climbed, static stopped. The UFO appeared to be S.E. of MIKE 6, range undetermined. At 0512Z, UFO climbed for altitude after hovering for 15 minutes. South radar base gave altitude at 100,000 feet, N.W. of Minot AFB, NDak. At this time a Strike Team reported UFO descending, checked with Radar Site, they also verified this. The UFO then began to swoop and dive. It then appeared to land 10 to 15 miles South of MIKE 6. "MIKE 6" Missile Site Control sent a Strike Team to check. When the team was about 10 miles from the landing site, static disrupted radio contact with them. Five (5) to eight (8) minutes later, the glow diminished and the UFO took off. Another UFO was visually sighted and confirmed by radar. The one that was first sighted passed beneath the second. Radar also confirmed this. The first, made for altitude towards the North and the second seemed to disappear with the glow of red. A3C SEDOVIC at the South Radar base confirmed this also. At 0619Z, two and one half (2 1/2) hours after the first sighting, and F-106 interceptor was sent up. No contact or sighting was established. The Control Tower asked the Aircraft Commander of the KC-135 which was flying in the local area to check the area. He reported nothing. The Radar Site picked up an echo on radar which on checking was the KC-135. No other sightings. At 0645Z discontinued search for UFO.

UFOs Sighted Near Minuteman Missile Silos (Golf Launch Facility) – 1965

By Department of The Air Force
Headquarters 90th Strategic Missile Wing (SAC)
Francis E. Warren Air Force Base, Wyoming
8-26-1965

[EXCERPTS]

b. Reported from Hotel Launch facility and observed by nine military personnel with the aid of binoculars.

(1). The first sighting was of an object the size of a star which appeared to the Southeast and traveled Westward, disappearing to the Southwest. Object was at 20,000 feet, very fast, and reappeared at four 25 minute intervals on the same course.

(2). The second sightings were to the North of the observation point. Object was slightly less than the size of a pea but appeared slightly larger with each successive sighting. Resembled a luminous glow, white to yellowish in front, semi-circular in shape, and the last two sightings appeared to have a trailing white glow.

Hadronic Mechanics' restoration of Einstein Determinism in particle physics, does not need superluminal speeds, as a total entanglement of all space (NOT quantum entanglement), has been established, and is being used practically in the hadronic reactor used by the US Navy to create neutrons from hydrogen grass's single proton and single electron brought into fusion as neutrons. ***Used to detect shielded nuclear weapons***.

WARP DRIVE TECHNOLOGY
In a perfect world these three scientists could work together, Dr Jack Sarfatti, NASA's Dr Harold White, and Dr Ruggero Maria Santilli. Between them tremendous progress could be made. Sarfatti appears to have resolved the fuel problem for warp drives, and states to have cracked the propulsion of the Tic Tac UFOs. Professor Santilli's hadronic space-time machines based on the brand-new branch of physics, hadronic mechanics, takes this to a whole other level (based on Dr Chris Illert's discovery in the biological sciences, of 4 arrows of time being used in simple life forms, in 100 different conch shell morphologies using 4-arrow "time travel" in every bifurcation of growth. Dr Illert worked with Dr Santilli), up ahead.

SARFATTI: In the first hour, Prof. Michael Masters (https://idflyobj.com) discusses his theory that evolutionary trends in culture and biology may ultimately result in humans becoming the ones piloting many of the UFOs that are seen around the world — their craft are likely the very devices that allow our descendants to venture backward across the landscape of time. Rather than extraterrestrials, Masters has dubbed these visitors as "extratempestrials," [Ananda Bosman: in the early 1990s we termed them "ExtraTemporals", or "ExtraTemporal Intelligences", this comes under the ultraterrestrial hypothesis] and he suggested they could be coming back from different future time frames, which might account for their varying appearances, though they've primarily been described as humanoid. During fetal development our eyes grow out of our brain, he explained, so if the human brain continues to expand as we evolve, so will the eyes, and this might account for why the extratempestrials have such large heads and eyes. Looking at alien abductions from a paleo-anthropology perspective, he noted that it would make sense that beings from our future would be interested in testing such things as skin, fecal, semen, hair, and egg samples to learn more about us.
See Diane Tessman's new book https://www.amazon.com/Future-Humans-UFOs-Time-Thinking-ebook/dp/B083NV8RT4/ref=sr_1_1?crid=1IG4XM4PBXFZ7&keywords=diane+tessman&qid=1580332649&s=books&sprefix=Diane+Tessman%2Caps%2C208&sr=1-1
In the second hour, theoretical physicist Jack Sarfatti argued that the technology behind the Tic Tac UFO (2004 incident off the USS Nimitz) is not mysterious at all- it folds space into a warp drive in such a way as to get to where and when it desires with tiny amounts of energy. Sarfatti claimed we can build our own Tic Tac-style craft quickly and that it would be in America's best interests to do so, as Russia already has a head start. Such spacecraft would render all our conventional weapons obsolete, he remarked, particularly if the warp capacity was weaponized. Sarfatti revealed he was contacted as a child in the 1950s "by what I think is the intelligence behind the Tic Tacs we're seeing today...It said it was a conscious computer aboard a spacecraft from the future." Concurring somewhat with the conclusions of Michael Masters in the first hour, he believes that many of the UFO visitors have time travel capabilities.

On November 14, 2004, the US Navy's Carrier Strike Group Eleven, including the USS Nimitz nuclear aircraft carrier were conducting a training exercise off the coast of Southern California when the Navy's radar systems detected as many as 20 anomalous aerial vehicles. In the latter half, Rich Hoffman (https://www.explorescu.org), a 25+ year Army Information defense contractor and founding member of SCU (Scientific Coalition for UAP Studies), discussed a recent paper (https://drive.google.com/file/d/1WgURI1Fzrkij3utVvcPISGTyEUNX4Z0J/view) his group published which examined the

extreme speed, acceleration, and power outputs demonstrated by the Tic Tac UFOs. By some estimates, he reported, the craft reached speeds as high as 104,000 mph, and had a parabolic trajectory that contained as much energy each second as the detonation of a tactical nuclear weapon.
The Pentagon videos show a thermal signature rather than the object itself, he explained, and one of the UFOs traveled to the planned destination of a fighter jet, suggesting it had an awareness of the military's maneuvers.
Further, Hoffman added, Navy airman Lt. Cmdr. Slaight witnessed a mirage-like effect around the anomalous object. This rippling distortion might have represented a field connected to craft's propulsion, Hoffman suggested, and he related it to radiation residue at UFO landing sites. There were also reports of UFOs exiting or entering the water, and Hoffman pondered whether the Tic Tac's field might have been causing a disturbance or pattern in the water.

FOR DR SANTILLI — HADRONIC SPACE-TIME MACHINES
That use Hyper-Locomotion, utilizing the hypertopic and genotopic planes of the brand-new branch of physics that restores Einstein determinism in particle physics, corrected the insufficiencies of quantum mechanics, that Einstein and others pointed to already in 1934. A science that changes everything.

Or that is how their vernacular has been interpreted by many, they do not exactly say that.
The film immediately hit the red light for me with the airplane flashes (I know the New York State research on UAPs morphing into airplanes, in New York State, but this was just off). And what appeared to be a second object did not register right.

This is a decent debunk, and shows how thorough, integral, logistical, and analytical we must be with every word coming from the DoD, Navy, and UAPTF. There were numerous Unidentified Aerial Vehicles, and the films were the least of the measuring equipment used to register them. A series of objective data sets, like radar, are in domino to assess.

Former Assistant General, Vermont, and military officer Terry Lovelace, I ask him some critical questions in a meeting in South Dakota, July 20th, 2019, which could give indication of military operations occurring in his case. Colonel Dr John Alexander at work, through Senate Majority Leader (former) Harry Reid, all done through this instrumentation. KLAS-8 Nevada TV journalist George Knapp, worked with John Bigelow of Bigelow Aerospace Industries, and Col Alexander at the beginning of the 1990s. Senator Harry Reid had caught the interest of Knapp in 1989, and they were introduced to Col Alexander (NSA) and Dr Hal Puthoff (NSA) in 1995. Harry Reid created AATIP, in 2007. We do not know Alexander's USAP status with the "Control Group". He publicly blasts with skepticism all who relay his connection to MAJI: Majority Agency for Joint Intelligence, the apparent "Control Group", stemming from the 5412 Committee in the 1950s (photos show him with Dr Edward Teller, of H-Bomb fame, and associated to the illumined MAJI. Yet his USAP: Unacknowledged Special Access Projects, links to them remain plausible. The way he protects Dr Edward Teller, is of note. Dr Alexander was the Director of Los Alamos National Laboratories. I became aware of Alexander in 1990, through New York Times best-selling author, Howard Blum's "Out There":
https://www.amazon.com/Out-There-Howard-Blum/dp/0671662619

Which explores a group of US Intelligence personnel coming together to get to the bottom of the UFO dilemma, during the 1980s — the *Aviary* group.

Dr Alexander could appear to have been an MAJI wannabe. Meeting him in person, however, gave a very different agenda. Sincere, to his believes, oath of allegiance, and understanding (this includes keeping national security secrets). Harry Reid insisted that *AATIP's* 22 million get inaugurated. Colonel Alexander had wanted Congressional Hearings in 2001. That is what this present project wants to achieve = Congressional Hearings.

This is the public preliminary report, giving the bare minimal. A much larger 70-125-page classified report was briefed to the US Senate.
144 UAP cases. 1 identified. Spanning a period from 2004-2021. Main UAP cases began from March 2020. And properly from November 2020. Majority of the cases from this recent period.
80 UAP cases with multiple sensor inputs.
18 exhibit unconventional exotic propulsion behaviors and will be studied further. Former Director of National Intelligence John Radcliff, states that in the version of the data he was attempting to declassify in November 2020, there were many more than 144 cases, and the report then was extensively large. Several that have testified to the classified briefing, have relayed 14 UAP films are included, and that appear like a 40-minute science fiction show.

"A recent report from the Office of the Director of National Intelligence (ODNI) highlights the current challenges associated with assessing Unidentified Aerial Phenomena (UAP) occurring on or near DoD training ranges and installations. It is critical that the United States maintain operations security and safety at DoD ranges. To this end, it is equally critical that all U.S. military aircrews or government personnel report whenever aircraft or other devices interfere with military training. This includes the observation and reporting of UAPs.
"The report also confirmed that the scope of UAP activity expands significantly beyond the purview of the Secretary of the Navy, who heads the Unidentified Aerial Phenomena Task Force (UAPTF), and suggested process improvements to ensure timely collection of consistent data on UAP. Consistent with these recommendations and to improve partnership with the ODNI and other non-DoD organizations, I direct the Office of the Under Secretary of Defense for Intelligence and Security to develop a plan to formalize the mission currently performed by the UAPTF. The plan should:
1. "Establish procedures to synchronize collection, reporting and analysis on the UAP problem set, and to establish recommendations for securing military test and training ranges.
2. "Identify requirements for the establishment and operation of the new activity, to include the organizational alignment, resources and staffing required, as well as any necessary authorities and a timeline for implementation.
"Be developed in coordination with the Principal Staff Assistants, the Chairman of the Joint Chiefs of Staff, the Secretaries of the Military Departments, and the Commanders of the Combatant Commands and with the DNI and other relevant interagency partners."

"Look, the bottom line is, unidentified aerial phenomena — many, many cases we're able to explain it away for reasons like visual disturbances, or weather phenomenon, or foreign adversaries and their technologies, or even our own experimental technologies with certain aircraft and vehicles, but what this report really underscores … is that there are a number of instances — and the specific number remains classified — but a number of instances where we've ruled all of that out."
"And there are technologies that we don't have and frankly that we are not capable of defending against — based on those things that we've seen, multiple sensors, in other words, where not just people visually see it but where it's picked up on radar, where it's seen on satellites. And so, you know, it's an issue of national security, and as the person who was informing policymakers about national security threats, it's not good to say, 'Gosh, we don't have good answers.' And so, we have to have a larger discussion to try and figure out specifically what this is all about."

As noted from the 9-page report, the majority of the 144 were from 2019, and Fall 2020. A very recent short period of time. New financing, and many branches of government now getting involved in the studies:

Academic groups encouraged to interface with NASA.
NASA Astronaut saw the classified version of the UAP report and says we are not alone, (from his CNN Interview), William Nelson is now in NASA Adminstration:

Quote:
"Former NASA astronaut Bill Nelson believes humans 'are not alone' after reading a classified version of the report.
"He told CNN Monday: 'I've seen the classified report. It says basically what we thought.
"'We don't know the answer to what those Navy pilots saw, they know that they saw something, they tracked it, they locked their radar onto it, they followed it, it would suddenly move quickly from one location to another.'
"The former Florida Senator thinks another life exists in the galaxy, The New York Post reports.
"Nelson, who is now NASA administrator, said: 'My feeling is that there is clearly something there. It may not be extraterrestrial but if it is a technology that some of our adversaries have, then we better be concerned.'
"Skeptics within the UFO debate think sightings can be explained by hypersonic drones sent by countries such as Russia or China, but Nelson appears unconvinced."

Paradigm Research Group's UFO lobbyist, Steven Basset, is probably correct that following October 12th Senate recession, more of the classified report will start flowing from senators like Marco Rubio, from either a 76-page version, or the original intended 125-page version. Others briefed have already begun to add detail, which will most probably continue throughout the Summer and early Fall of 2020.

Now with the UAP Report removing the stigma and encouraging reporting, Tic Tac witness, Keven Day demands a public apology and even compensation for the damage it made to his career fro reporting the Tic Tac:

Virginia Tech Professor, Robert McGuire's sources say the report was 70 pages, with 14 videos of 40 minutes, that appeared like a sci-fi movie, those briefed were "gob smacked":

"According to UFO researcher and Virginia Tech professor Bob McGwier, the full classified document that was shared with Congress and the National Security Council was far more detailed.
"'There were 70 pages and 14 videos, they got to see the good stuff,' he explained on Spaced Out Radio.
"'There was a full classified report and 14 videos. I know several people who were in the national security council meeting and the best comment I heard was "what we had was 40 minutes of science fiction movies, we were all gobsmacked"'.
"'It's ridiculously slim. Everything they could redact they did but the committees and the White House – they saw the works.'"

'The classified portion of the UAP report given to a select number of congressmen and senators relates to the following:

1. Energy Pulse Propulsion System (EPPS) projects
2. Ion Propulsion Systems (IPS)
3. Anti-gravity propulsion systems
4. Anti-Matter propulsion systems
5. Ramjet Hydrogen Propulsion Systems (RHPS)
6. Compressed Nuclear Propulsion Systems (CNPS)
7 Advanced use of exotic elements for energy research (ET related items)
8.The K-Song Energy/Propulsion System Research Project (KEPSRP)

'All these highly classified projects are under the control of the Defense Advanced Research Project Agency (DARPA) and being managed by a classified group called-advance Group-6. All funding for these projects is black confidential funds appropriated under intelligence operations costs. Some funds come from private contractors.
Prototypes of flying crafts utilizing the above technology are being flown at Area 51 and Tonopah AFB Yes Range.
'Some of the UAPs observed in and around Nevada can be contributed [sic] to crafts using the above propulsion systems. However, none of the experimental crafts have flown outside the Nellis Test and Training Range. None of these experimental crafts can be contributed [sic] to the sightings photographed by the US Navy.'"

The track record of Richard Dollan is impeccable in the UFO research community, he himself highlights that this Intelligence is not verified, but that his source is trusted.

Point number 7, can refer to the Robert Lazar testimony (see the MsM Bibliography, including the Joe Rogan Experience interview with the Area 51 Physicist).
The very last sentence would give evidence that the UAPTS has made significant enquiries through the covert world, to eliminate the Navy UAPs as being of the USA. As more leaks come forwards, time will tell if this leak was accurate.

Written after Wilbert B Smith, who was one of the world's leading communications Chief's during WWII, Vancouver, Canada — after his visit to Washington DC, where he met with the US Control Group studying UFOs, which included Dr Robert Sarbacher, President of the Washington Institute of Technology, and a chief Manhattan Project scientist, and as the memo states, headed by Dr Vannavar Bush. Memo states UFOs classified higher than the H-bomb, in 1950 that was the highest classification, and their propulsion was being studied by a small group of specialized scientists, including mental phenomenon being involved. Dr Soland is mentioned in the memo, who went on to be involved in the CIA's MK Ultra Project studying the whole spectrum of mind control. There are significant details in this memorandum. Researcher William Steinman (*UFO Crash at Aztec*), managed to interview Dr Sarbacher, who not only confirmed the meeting, but also describes his impression of the UFO pilots.[12]

"QUESTION: *"If we have been visited, why haven't they landed?"*

"ANSWER: *"The fact of the matter is that there are many reports of landings, at least 200 of them, which occurred in 1954 alone."*

Dr. William T. Powers, an astronomer and former Project Bluebook investigator for the USAF, wrote in the prestigious journal *Science* that:

"In 1954, over 200 reports over the whole world concerned landings of objects, many with occupants. Of these about 51 percent were observed by more than one person. In fact, in all these sightings at least 624 persons were involved, and only 98 of these were alone. In 18 multiple witness cases, some witnesses were not aware that anyone else had seen the same thing at the same time and place. In 13 cases, there were more than 10 witnesses."

AIAA Committee Looks at UFO Problem AIAA UFO Subcommittee, Astronautics and Aeronautics, December 1968, p. 12
Summary: The Committee has made a careful examination of the present state of the UFO issue and has concluded that the controversy cannot be resolved without further study in a quantitative scientific manner and that it deserves the attention of the engineering and scientific community.

A Summary:
http://www.ufoevidence.org/documents/doc593.htm

Quote: **"**The Committee has made a careful examination of the present state of the UFO issue and has concluded that the controversy cannot be resolved without further study in a quantitative scientific manner and that it deserves the attention of the engineering and scientific community.
"UFO (Unidentified Flying Object) Phenomena in this country have generated controversy, arising from observations which appear to span a wide range of the reliability spectrum. The scientific and engineering community, which includes, in particular, those who are trained in applying the scientific method to observational data, has not evidenced an overwhelming interest in the problem. Neither, however, has the UFO problem died on the vine. Therefore, in the recent past, more systematic studies have been made by some scientific investigators. So far as one can tell, such studies have not produced clear-cut conclusions not erased controversy.
"Under these circumstances the AIAA, about a year ago, asked two of its Technical Committees - namely, the Committee on Atmospheric Environment and the Committee on Space and Atmospheric Physics, to consider the formation of a focal point for this problem area, which, by its very nature, lies in the sphere of interest of the AIAA community. Accordingly, these two TCs established a Subcommittee on the UFO Problem with the following membership:

Jerald M. Bidwell
Martin Marietta

FBI Documents FOIA — 1976[13]
In 1976 Navy physicist Dr. Bruce Maccabee filed a Freedom Of Information Act (FOIA) request and obtained 1,100 pages of documentation on UFOs from the FBI, and this document was among them:

"An investigator for the Air Forces stated that three so-called flying saucers had been recovered in New Mexico. They were described as being circular in shape with raised centers, approximately 50 feet in diameter. Each one was occupied by three bodies of human

[13] *We have excerpted and shortened from sections of our massive 1993 book: "The 'Alien' Presence: The Evidence for Government Contact with 'Alien' Life Forms," for this section on the FBI, CIA, NSA, files.*

shape but only 3 feet tall, dressed in metallic cloth of a very fine texture. Each body was bandaged in a manner similar to the blackout suits used by speed flyers and test pilots.
"According to Mr. XXXXXXX informant, *the saucers were found in New Mexico due to the fact that the government has a very high-powered radar set-up in that area and it is believed the radar interferes with the controlling mechanism of the saucers. [Authors Italics].*"

This document is recorded and indexed from March 22, 1950. The document relates to UFO recoveries between 1947-1950. A second FBI document issued through the same FOIA release in 1976, mentions a UFO recovery possibly connected to the Aztec, New Mexico UFO crash (1948):

"...a flying disc had been found intact, with eighteen three-foot tall human-like occupants, all dead on it but not burned. Further, that the disc was alleged to be of very hard metal and near indestructible. XXXXXXX is said to have exhibited a radio set to XXXXXXXXXXX purported to be a souvenir of the space disc."

A HISTORIC 10,000 UFO FILES RELEASED FROM US INTEL. CAUS: Citizens Against UFO Secrecy — BEGAN 1976 — LEGAL COURT VICTORIES FOR THE PUBLIC
Through the Freedom of Information Act request process a series of historic UFOlogical events unfolded in the late 1970s to 1980. Citizens Against UFO Secrecy (CAUS) emerged as a result of the renewal of the Freedom of Information Act in 1974.
Created by New York criminal defense lawyer Peter Gersten, former National Security Agency (NSA) employee W. Todd Zechel, and Brad Sparks, based in Connecticut, in 1976. Peter Gerstein, founder of CAUS was originally involved in a case against the CIA for the Ground Saucer Watch organization.[14] [15]

W. Todd Zechel revealed information he learnt about the NSA's and the CIA's involvement in UFO related projects.

---

[14] *See our 1993 book: "The 'Alien' Presence: The Evidence for Government Contact with 'Alien' Life Forms," for documentation, we have excerpted from it here, and significantly shortened.*

CAUS has waged many legal battles in court against the NSA and CIA for release of their UFO related documents, or other UFO documents in their possession. CAUS achieved remarkable success with the CIA.
It is largely due Zechel's and Gersten's efforts, that we now have over 10,000 officially declassified UFO related documents from the CIA, FBI, DIA, and NSA. Taking UFOs from legend to a very real and solidly documented reality, with hair raising implications.

CIA 1000 Files Released through FOIA (Freedom of Information Act requests)

Starting in 1977 former NSA officer, Todd Zechel with William Spaulding of Ground Saucer Watch (GSW), represented by two powerful lawyers, Henry Rothblatt, and Peter Gersten, brought a law suit against the Central Intelligence Agency (CIA), in the U.S. District Court on behalf of GSW. And successfully managed to secure 1,000 pages of UFO-related documents under provisions of the Freedom Of Information Act (FOIA) in 1978. Initially they refused 57 documents on grounds of National Security considerations. These 1,000 documents were released following months of legal battles in court. Acting on the behalf of GSW, they managed to sue the CIA in 1977 under the FOIA in a successful attempt that forced the Agency to release its files on UFOs.
Then on the 20th of December 1978, a press release was distributed to the news media in Washington DC. The headline stated: "CIA Releases UFO Documents." Prepared by Citizens Against UFO Secrecy (CAUS).
Before the CIA released these documents, the Agency denied that they were investigating UFOs in any manner. Yet I ask you, did you know that the CIA had released around 1,000 UFO documents in 1978, with more being released in following years?
There are still believed to be over 10,000 pages of classified UFO documents at the CIA's Headquarters in Langley, Virginia.[16]

NATIONAL SECURITY AGENCY — UFO FILES — UNRAVELLED THROUGH COURT BATTLES

The Release Of NSA UFO Related Documents[17]

Until 1980, there were few, outside of the intelligence community, who had the suspicion that the NSA was involved with UFO research. Some of those who did wonder about the NSA's involvement with UFOs, wrote to them. Robert Todd (known as Todd Zechel), wrote to the NSA requesting any information on the Agency's role in UFO research, received a blunt reply:

"Please be advised that the NSA does not have *any* interest in UFOs in *any* matter."

Similar denials had been made by the CIA, and FBI, before legal release of their documents.
The NSA's involvement with UFOs began when CAUS was in the process of litigation against the CIA. 18 documents on UFOs that originated with the NSA were admitted during this litigation. Peter Gersten filed a request under the FOIA for the release of these documents. He was subsequently told that the documents were exempt from disclosure — under SUS code, section G52 (B) (1) — in the interest of National Security.[18]
After Gersten's second unsuccessful attempt under the FOIA to obtain the documents, he was eventually able to secure the release of two NSA documents in January of 1980.
At that time the NSA also admitted that there were other documents on UFOs that they were withholding, in addition to the original eighteen. A further 79 documents were also being referred to other originating agencies for review. For more information on this see the book *Clear Intent*.

[17] [17] *We have excerpted and shortened from sections of our massive 1993 book: "The 'Alien' Presence: The Evidence for Government Contact with 'Alien' Life Forms," for this section on the FBI, CIA, NSA, files.*

[18] *"The Puzzle Palace: Inside the National Security Agency, America's Most Secret Intelligence Organization," by James Bamford, 1983.*

Later on in 1980, in another court hearing, NSA representative Eugene Yeates admitted that the NSA had found a total of 239 documents on UFOs, that came under the FOIA request. This being after the NSA had said that the agency did not have any interest in UFOs in any matter.
Peter Gersten filed suit against the NSA on behalf of CAUS, again the NSA refused to release more documents. The suit took place in the District Court of Washington DC, in 1980, implemented in the hope of obtaining the 135 documents which the Agency then admitted to withholding.
Judge Gesell was asked to study a 21-page NSA affidavit in camera. After reading this top secret affidavit, the Judge ruled that the Agency was fully justified in withholding the documents in their entirety. To quote Judge Gesell:

"The bulk of the material withheld consists of communications intelligence reports, which defendant [NSA], asserts are protected by exemptions 1 and 3 of the Freedom of Information Act....The Court first carefully reviewed the public affidavit of National Security Agency official Eugene Yeates, and then after receiving Plaintiff's opposition, examined personally a Top Secret affidavit from Yeates, submitted by defendant [NSA] *in camera*.... On the bases of those affidavits, the Court finds that the claimed exemptions have been properly and conscientiously applied...
"...The communications intelligence reports clearly relate to the *most* sensitive activities of the defendant." [Emphasis mine]

When the research into UFO related topics are the *most* sensitive areas of the NSA's activities, as Judge Gesell announced above, then this precisely validates whistle blowers claims of the NSA being specifically set up by Truman to deal with and communicate with the "Alien Presence", (please read the last 2-line paragraph by Gessel again). Judge Gesell continues:

"Throughout the courts review of this material, the Court has been aware of the public interest in the issue of UFOs and the need to balance that interest against the agencies need for secrecy. The *in-camera* affidavit presents factual considerations which aided the Court in determining that *the* public interest in disclosure is far outweighed by the sensitive nature of the materials and the obvious effect on National Security their release may entail." [Emphasis mine]

The in-camera affidavit that Judge Gesell viewed, was itself classified above top secret. It was classified Top Secret Umbra, which was the highest classification for SIGINT documents at that time.
It is evidently clear, therefore, that the subject matter in the NSA affidavit that Judge Gesell read, is of the greatest intelligence sensitivity with a clearance level of UMBRA. This affidavit publicly released version, naturally is in censored form with many pages blacked out (redacted): with 412 lines totally or partially deleted from an affidavit that contained 502 lines.

After this another appeal was made to the US Court of Appeals in October 1981, but this again led to nowhere, as researcher William Moore comments:

"In a brief decision issued barley a week after the oral arrangements were presented (normal time for such decisions is about 2 months). The panel...upheld the lower court's position virtually without comment. All 3 judges, along with U.S. Defense Attorney Cherlyl M. Long (but not Plaintiff Attorney Gersten) had been granted special security clearances to enable them to view the same NSA classified affidavit which had been presented to Judge Gesell a year earlier."

Thus, because Plaintiffs Attorney was not able to view the uncensored affidavit, he could not defend CAUS in their appeal. Peter Gersten filled yet another petition in 1982, to have the US Supreme Court hear the case of CAUS vs NSA. His 84-page petition argued against the NSA's "sweeping classifications of all UFO data." But as usual, in March 1982 the Supreme Court upheld the earlier ruling of the District Court.
The legal battles have continued into the 1980s, with a little success. They still continue to this day, however, and perhaps will continue for a while to come. Some of the less important documents have been released due to these efforts, however [in fact CAUS continued its efforts until 2001. This year shortly before the UAPTS Preliminary Report release, the NSA claimed to have lost all its non-redacted documents on UFOs that were hitherto released redacted. One NSA document through this process, was set to be released for 2003. NSA dragged its feet until 2011. This document details 29 ET messages received by the NSA, 1952-54, and decoded by Dr Campaigne].

Todd Zechel says in his 1977 report "*The CIA has proof that UFOs exist*", that while he was working with the NSA in 1964:

"Most of the personnel I worked with were convinced of the reality of UFOs, and many had had personal experiences with these puzzling craft during the course of their jobs."

United States Library of Congress Congressional Research Office Project on Extraterrestrial Intelligence
Harvard law school Watergate and Iran Contra Attorney, Daniel Sheehan, in 1977, while General Counsel to the United States Jesuit Office of Social Ministry in Washington, DC., served as a Special Consultant to the United States Library of Congress Congressional Research Office Project on Extraterrestrial Intelligence ordered by President Jimmy Carter.
In this capacity, Sheehan was given access not only to the classified portions of the United States Air Force's infamous "Project Blue Book" files but to the confidential report prepared for the Science & Technology Committee of the United States Congress by the Library of Congress Congressional Research Office pursuant to this Presidential assignment.
Summary: *A former Defense Intelligence Agency official, a senior Stanford Research Institute policy analyst and famed constitutional attorney Daniel Sheehan have all confirmed that President Carter's attempts to obtain UFO information was thwarted by illegal actions by rogue military and intelligence entities.*

President Jimmy Carter's White House was Denied UFO Intel
"The Disclosure Project, a nonprofit research and public interest group based in Charlottesville Virginia (http://www.disclosureproject.org/) has obtained testimony from multiple, independent corroborating sources that President Carter was denied access to sensitive UFO files.
"A former Defense Intelligence Agency official, a senior Stanford Research Institute policy analyst and famed constitutional attorney Daniel Sheehan have all confirmed that President Carter's attempts to obtain UFO information was thwarted by illegal actions by rogue military and intelligence entities.

"Mr. John Maynard, Defense Intelligence Agency, ret.: 'I'm a retired intelligence analyst…was in the military for 21 years and started off with the Army Intelligence Security Agency as an analyst. I went on to work for several different organizationswith the

military and ended up with the DIA…in charge of…the documents for the Requirements and Evaluation division. In Europe, I researched these UFO reports and we got quite a bit of information about the sightings…. drawings of what the vehicles looked like, whether they landed or not, whether they saw any … extraterrestrials…. it made for an exciting career. They [the reports] were going to the CIA …the DIA…the Air Force Office of Special Intelligence…But as far as UFO and intelligence and extraterrestrial matters go, it's right at the top - and I would say that the president has limited knowledge of it. I know that Carter did not have any knowledge whatsoever. And I worked there with…. President Carter's organization.'

"Dr. Alfred Lambremont Webre, Senior Policy Analyst: 'I hold a BS degree from Yale…a law degree from Yale Law School… a Master's of Education in Counseling from UT... I was a Senior Policy Analyst at the Center for Study of Social Policy at Stanford Research Institute [SRI]. I worked on the 1977 Carter White House Extraterrestrial Communication Project. The goal of the study was to fill the knowledge gap on this subject….and would include data on UFOs and EBE's [Extraterrestrial biological entities], of which there have been many sightings. It would have gone to as many foreign countries as possible; France…the then Soviet Union… China… under the aegis of the National Science Foundation. The project was terminated. They [management of SRI] had received direct communications from the Pentagon that if the study went forward, SRI's contracts with the Pentagon [which were many] would be terminated. He [my SRI Pentagon liaison] stated that the project, that had just been approved by the White House, was terminated because, and I am quoting him, "There are no UFOs."'

"Daniel Sheehan, Attorney: 'I'm a 1967 graduate of Harvard Law School…. studied American government and constitutional law… served as general counsel and co-counsel for the New York Times in the Pentagon Papers case and was involved in briefing and arguing the case in front of the US Supreme Court… represented James McCord in the Watergate burglary. I subsequently attended the Harvard Divinity school in Judeo-Christian social ethics in public policy… did my masters and PHD work there… I became the general counsel for the US Jesuit headquarters in D.C. In 1977, I was contacted by the director of the Science and Technology Division of the Congressional Research Service. She informed me that President Carter had held a meeting with the director of the CIA, George Bush Sr, and demanded that he [Bush] turn over to the President the classified information about UFOs and the information that was in the possession of the US intelligence community concerning the existence of ET intelligence. This information was refused to the President of the United States by the director of the CIA. The DCI [Director of Central Intelligence] suspected that the president was preparing to reveal this information to the American public.'"

UN General Assembly decision 33/426, 1978, *Recommendation to Establish UN Agency for UFO Research - UN General Assembly decision 33/426, 1978*

Summary: At its 87th plenary meeting, on 18 December 1978, the UN General Assembly, on the recommendation of the Special Political Committee recommended the establishment of an agency or a department of the United Nations for undertaking, co-ordinating and disseminating the results of research into unidentified flying objects and related phenomena.

NIDS: National Institute for Discovery Science, Nevada, 1995. Founded by Millionaire Robert Bigelow of Bigelow Aerospace Industries, to study UFOs and related "Paranormal" phenomenon associated with UFOs, included Colonel John Alexander (NSA), and Dr Hal Puthoff, two major players in New York Times best-selling journalist Howard Blum's 1990 book: "Out There", exposé on US Intelligence thinkers trying to get to the bottom of the UFO mystery during the 1980s, nick named "the Aviary". All three were introduced to Senator Harry Reid in 1995. Reid created AATIP in 2007. Alexander almost created Congressional Hearings on UFOs in 2001:

FRENCH COMETA REPORT ON UFOS (English, 1999): "*UFOs and Defense: What Should We Prepare For?* An independent report on UFOs written by the French association COMETA. This report details the results of a study by the Institute of Higher Studies for National Defense.

In 1999 an important document was published in France entitled, UFOs and Defense: What must we be prepared for? ("Les Ovni Et La Defense: A quoi doit-on se préparer?"). This ninety-page report is the result of an in-depth study of UFOs, covering many aspects of the subject, especially questions of national defense. The study was carried out over several years by an independent group of former "auditors" at the Institute of Advanced Studies for National Defense, or IHEDN, and by qualified experts from various fields. Before its public release, it has been sent to French President Jacques Chirac and to Prime Minister Lionel Jospin. The report is prefaced by General Bernard Norlain of the Air Force, former Director of IHEDN, and it begins with a preamble by André Lebeau, former President of the National Center for Space Studies (Centre National D'études Spatiales), or CNES, the French equivalent of NASA. The group itself, collective author of the report, is an association of experts, many of whom are or have been auditors of IHEDN, and it is presided over by General Denis Letty of the Air Force, former auditor (FA) of IHEDN.

HUMANOID REPORTS:
There are at least 4,000 humanoid cases (researched by Albert Rosales), also known as Close Encounters of the Third Kind (CE-III), a term coined by J. Allen Hynek. Humanoid" means "having human form or characteristics." The term "Close Encounter of the Third Kind" means seeing or coming in contact with an entity of unknown origin. The encounter may or may not be related to the sighting of an unidentified craft.

Police Officer's UFO Reports
Over 900 British Police Have Witnessed UFOs

> "Officers have seen objects that appear to move in ways that defy physics."
> *—Police Detective Constable Gary Heseltine*

WASHINGTON—British police officers have been personally involved in at least 430 UFOs sightings, including one that was three times the size of a football field, a hearing of six former members of the United States Congress heard on Thursday.

Gary Heseltine, a serving police officer in the United Kingdom, is the creator of PRUFOS a police database [www.prufospolicedatabase.co.uk] he maintains in an unofficial capacity.

The database, which he launched in January 2002, caters to serving and retired officers who have been involved in British UFO police sightings.

"Sightings have been taking place the length and breadth of Britain at all times of the day," he told the six-member committee.

Heseltine said when he started the database 11 years ago, he had records of six cases involving 11 police officers. Today he has 430 reported sightings of UFOs involving over 900 police.

Heseltine said about 70 percent of the cases he had on his database involve multiple witnesses. "In one case, 24 police officers observed one object," he said.

Many police have observed structures or craft "of large proportions" Heseltine said. He described one report in Middlesex in March 1984, where officers described a "silent black object the size of three football fields."

In another report, three policemen witnessed a mothership the size of one football field that was accompanied by smaller ships.

The mothership was sending a beam to the ground when the ship and all the surrounding smaller objects suddenly disappeared so fast it was "like turning out a light bulb," Heseltine said.

Heseltine said British police officers were "seeing actual structured craft, physical in nature."

"Many officers have seen objects that appear to move in ways that defy physics," he said.

Heseltine said that British authorities followed the same policy of denial as the United States. That left members of the British police unsupported and often distressed, unable to offer the public acceptable explanations.

"The time is now to lift the veil," on the subject of UFOs he said, adding that was important that people be "able to disclose their experiences without the risk of ridicule."

Heseltine was speaking at the Congressional-style Citizen Hearing on Disclosure which took public testimonies from international researchers and former members of the U.S. military on extraterrestrial encounters, at the National Press Club, April 29- May 3.

The aim of the weeklong hearing is to pressure the United States government to open its files on documented encounters with extraterrestrial life and UFOs.

UFO Landings
The Magonia Database was compiled by Jacques Vallee and published in his book "Passport to Magonia." This catalog of cases and reports lists UFO reports where a UFO has landed, or its occupants were witnessed. There are hundreds of credible reports, many with multiple witnesses, of humanoids in association with landed spacecraft.

X-Conferences 2004-2010, Washington DC Press Room:
PRG's Washington DC UFO Lobbyist, Steven Basset: "From 2004 to 2010 PRG produced six X-Conferences (Exopolitics Expos) in the Washington, DC metro area. The first five were held at the Hilton Hotel in Gaithersburg, MD. The last was held at the National Press Club in Washington, DC.
"The primary goal of these events was to bring the expolitics of the extraterrestrial related phenomena issues to the Nation's Capital and the political media.

"These conferences produced over 100 lectures from 80 speakers, film premieres, banquets, the PRG Awards and six press conferences at the National Press.
"Due to funding issues the X-Conferences were suspended after 2010. PRG does not expect to produce another such event until after Disclosure."

Citizens Hearing on Disclosure. April 29th-May 3rd 2013. Washington DC Press Club Press Room

"The Citizen Hearing on Disclosure set out to accomplish what the U.S. Congress had failed to do for forty-five years - seek out the facts surrounding the most important issue of this or any other time - evidence pointing toward an extraterrestrial presence engaging the human race.
"Forty researchers along with military/agency/political persons of high rank and station came to the National Press Club in Washington, DC to testify to six former members of the United States Congress.
"The main ballroom of the National Press Club was configured to resemble a Senate hearing room. There were press areas, an audience area, witness tables and committee tables. Protocols for congressional hearings were followed as closely as possible during the testimony. Committee members received written statements from witnesses, heard oral statements and asked whatever questions they wished about the subject matter at hand.
"Hearing witnesses testified for thirty hours over five days in five morning and five afternoon sessions, each composed of two panels of witness, each panel lasting approximately ninety minutes.
"In the evenings, additional lectures were given by a number of top researchers in the field up Ufology."

Paradigm Research Group's Steven Basset, UFO Lobbyist in Washington DC:

"In 2013 a mock congressional hearing to take testimony about UAP/ET phenomena was conducted in the main ballroom of the National Press Club (NPC) in the National Press Building, two blocks from the White House.
"Seven years later we may be on the threshold of official congressional hearings on the UAP phenomenon; so, it is perhaps appropriate to briefly introduce the Citizen Hearing on Disclosure (CHD) to those newly drawn into the issue by the extraordinary events of the past three and a half years.

"I began thinking about the possibilities of a mock congressional hearing in 2000. Eventually I discussed the idea with colleagues including attorney Alfred Webre, who assisted in drafting the initial proposal.

"Much energy was infused into the concept with the groundbreaking press conference held in the NPC ballroom by the Disclosure Project founded by Dr. Steven Greer. Fifteen witnesses joined Dr. Greer and a moderator on the stage. Two hundred reporters and attendees filled the audience. Behind them was a string of cameras extending from one end of the ballroom to the other. At the time it was thought to be the largest press conference in the history of the NPC.

"Here, I thought, is where a mock congressional hearing should be placed if the funding could be found. The beautiful NPC ballroom would be worthy of such an event. The first Citizen Hearing website went up in 2002 and contained the initial proposal.

"A project of such magnitude was challenging to fund. Consequently, I turned to another project, which became the six X-Conferences (2004-2005 and 2007-2010). Each X-Conference was followed by a press conference at the NPC. The 2010 X-Conference was held at the NPC.

"In 2012 PRG supporter Elizabeth Trutwin introduced me to a successful Canadian entrepreneur and philanthropist Thomas Clearwater. He was considering a sizable donation to the Disclosure activist movement and PRG was an option. He had supported other organizations in the genre.

"To help secure this funding I entered into a full partnership with Reuben Langdon, CEO of Just Cause Productions. Reuben had been providing substantial and critical in-kind support to PRG. The partnership proposed a production deal to Mr. Clearwater to produce the Citizen Hearing on Disclosure and an accompanying documentary. Therefore, the funding would not be a donation and extended the possibility the funds could be returned with profit allowing Mr. Clearwater to assist other organizations. The proposal was accepted and work began.

"The partnership hired a colleague of Reuben to direct the documentary - Jeremy Corbell.

"The Citizen Hearing on Disclosure took place at the NPC from April 29 to May 3, 2013. It included a committee of six former members of the U.S. Congress, 42 military and civilian witnesses, a moderator, and a legal counsel to the committee. In addition to the mock hearing a number of witnesses gave lectures during the evenings.

"I produced the hearing itself. Critical production assistance was provided by Dr. Joseph Buchman who was responsible for securing five of the six former members of Congress for the committee and also served as the hearing moderator.

"The entire event was filmed by Ron James and his technical team out of Los Angeles. They also handled the live stream. Reuben Langdon as partner was involved from the beginning with planning and decisions and worked with Jeremy Corbell on the documentary while assisting on-site with the CHD.

"The Citizen Hearing on Disclosure was widely considered to be an impactful success. Unfortunately, during the months following the event significant financial difficulties prevented the completion of a documentary.

"The CHD was the first phase of a larger activist strategy that included a congressional hearing/presidential campaign initiative. To begin the second phase a 10-DVD set of the entire Citizen Hearing on Disclosure was delivered to 540 congressional offices. These sets were produced by Ron James from the raw footage filmed at the CHD and delivered to the Congress in November of 2014.
"Also in 2014 Jeremy Corbell was made a third partner and supervised the post production of the CHD raw footage to the level made available at the CHD website. That footage is now being posted to YouTube in sections free to the public.
"Please know this event helped to prepare the space for the official hearings soon to take place."
